Wrangle and Analyze Data Report
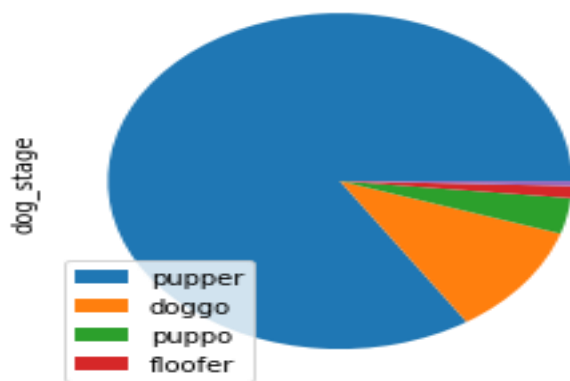

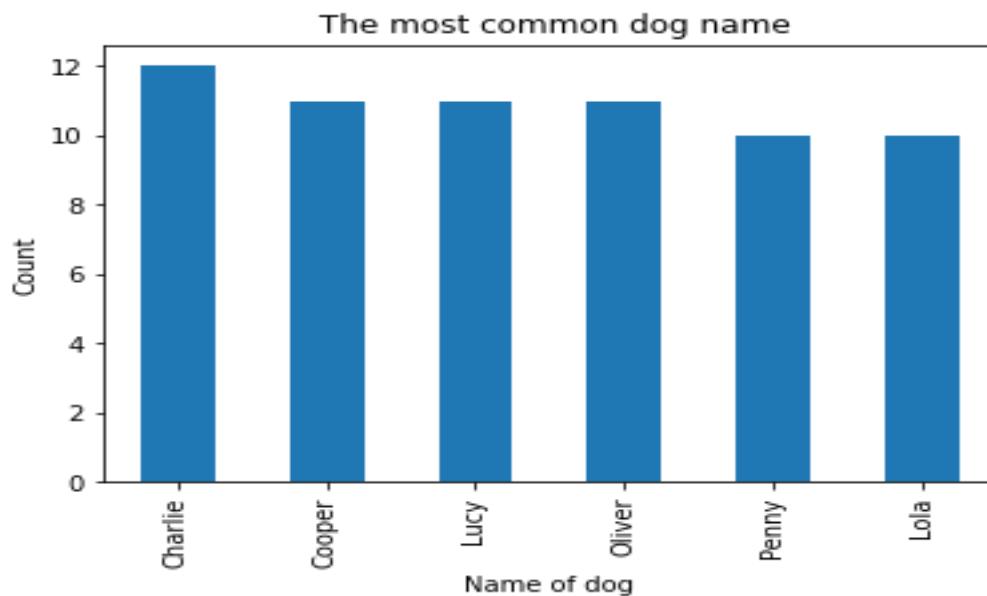

Project 2

Analyzing and Visualizing Data

After having a deep look and analyzing the entire data, I wanted to get information about for example, the most common dog stage in the data set, the most common dog name in the data set, the biggest number of tweets over the time

- I found, Pupper is the most common dog stage in the data set

Pie Chart for the most commmon dog stage

- Charlie is the most common dog name in the data set

The most common dog name

- On 2015-11-29 was biggest number of tweets over the time and on 2016-12 -16 had the lowest number of tweets

- The biggest number of followers count was 8876685
